James Meredith

I am writing this letter as a Christian adviser. You know Christ taught peace. If he wanted to help everyone, let him separate the races himself and then awful thing you have done, still doing sin against the teachings of salvation are you willing to ruin not only your family's race and ruin our whole race of people? Schools, you are responsible for 26 people being killed. As you well that murder? When you people force schools, why kill you not have dignity and self-respect for your self? You kill your entire race. You are doing exactly what the Communists want you to do. The Kennedy people had no right to send troops there to put Negro in a while school - stop this.
