Dear Negroes,

We, the White people of the South, would appreciate it very much if you would remove your person from the premises of Ole Miss. This Country is God's Country. And God's people are White. You are not God. You disturb the lords of God. You disturb God's people. You are out of place and you know it. You are causing two much disturbance. All over the world, you are trying to give the White man a black eye. You won't ever gain by what you are claiming. Who will live you. After you have caused so much trouble, you are not wanted by God. Or by any One that really knows about God. You are to be ostracized!

Will you please remove your person from the Campus of Ole Miss College.

I thank you,

God thanks You.

People of the White Race thanks You.

(The little girl) Dovie
