My Dear Friends:

It is a terrible shame what is taking place in Mississippi at the present time. It is the very worse thing that can happen as the reflection it has on our Democracy.

I am ashamed for those who are responsible for this outrageous demonstration at the University. What is gained in attending a college or university, for higher learning when those who are participating in this violence, are so hate filled and with no mercy. This is nothing more than an example of man in humanity toward men.

I was reared in the South, and am acutely aware of the situation which has existed through the years. I approve of Mr. Meredith standing up for what is right, it is time for this.

No human being living in America today who was born or reared in our country should have to fight for these rights which are their inheritance to begin with. This is truth and it must be spoken. One must join hand in hand to correct these wrongs.

The greatest gift that can ever be given to others is the free gift of love.
Please let me know what I can do to help in this cause and call upon me, as I am very

Sincerely yours,

Chris Kastis
