Dear Mr. Meredith:

You must know by now that the Negro race from all over the world is very pleased with your actions to help alleviate this big mess of "White Supremacy".

Mr. Meredith, we want you to know that we are with you all the way. It is not that we dislike the white students so much and want to be sepulved over them, it is just that they must realize that God put more than just the white race here to live on this Earth. Mr. Meredith, we as the New Negro generation must change this situation definitely, and are fighting to do so.
We do not want you to feel that you are fighting this battle alone, Mr. Meredith. This is why we as Negro students feel that it is our duty and responsibility to encourage you in every way. We too, are sorry that two lives were lost during this crisis, but it could not be prevented. We do hope you do not feel this is at all your fault, for every American as a whole is at fault. You see Mr. Meredith, segregation is not only planted in Mississippi or the other states, it is planted here in Chicago and in many other of the big cities. Mr. Meredith, we all pray and are hoping with all
Our hearts that nothing drastic will happen to you, and that God is with you in every step you may take.

This is about all we wish to say to you except “Good Luck” and may God be with you.
