The Piney Woods Country Life School

CORPORATE NAME
For Training Negro Young People in Christianity, Character and Service

Piney Woods, Mississippi

May 1950

To our friends:
You have helped to build an industrial training school in Mississippi.
Enclosed is your invitation to the Piney Woods School Annual Commencement exercises of a practical nature.
How I wish you could see these earnest Christian hearted boys and girls of various denominations and from many counties and states!

"WHAT'S NEXT JONES?"

About this time of the year many friends ask "What are your objectives for the summer?"
"How can we help you at this time?"

Boys and girls who are without funds to pay their way are working their way by staying at Piney Woods this summer.
We can help them in proportion to the use of money we can have for the following:

BLIND STUDENTS
To overhaul and repair the cottages that were used by the blind students $1727.70.

FARM BOYS

A roller pulverizer ........................................ $ 200.00
Sericea seed for permanent pastures ............................... $ 175.00
Special fertilizer for extra poor soil ........................... $ 215.00
Fordson tractor .............................................. $1375.00
Poultry wire fencing .......................................... $ 225.00
Rough pine lumber for additional poultry houses ........ $ 380.00

TEACHERS

A Teacher's Cottage ........................................ $3200 plus hardware

We have retired elderly white lady teachers who come down and donate their services.

This means to obtain this equipment and material will be an opportunity for many boys to remain in Piney Woods School this summer and make their way for this school term.

In the joy of sproying
a human orchard,
