We enter like this If you help Piney Woods School

Some day we'll grow up like these folks and go out into the world law abiding, industrious citizens.

We are smiling to wish for you and yours a merry, merry Christmas and a happy prosperous New Year!

These students of the Piney Woods School are here and smiling to express their THANKS

For the many friends in our good old U.S.A. who have made their practical education possible.

If they could speak to you, it might be the old Christmas salutation "Christmas Gift" to help keep Piney Woods School developing either its industrial program, its classroom education or Christian training.

Whatever you find convenient to share will be gratefully received.

Sincerely,

[Signature]
Founder and President
